The Curfew Law.

THE News has been so often urged by numerous citizens of Paris to agitate the question of a Curfew law, that it has decided to place the matter before the people of Paris in a manner that will give them the opportunity of expressing their views on the subject. There is no doubt that Paris has long felt the need of such a law. Numerous other cities throughout the State have adopted it, and the results have been a decided improvement in the morals of the youths in those cities. There is hardly a city in the entire West that has not had the Curfew law in force for several years. If the mothers and fathers of Paris knew the vicious habits that their boys are contracting through being allowed to roam the streets at night, we do not think one of them would be anything

but heartily in favor of adopting and enforcing the law.

THE News will print the coupon below in its columns from this issue until the first of January, thereby giving every one an opportunity to express their views upon the subject. If you are in favor of the City Council making a Curfew law, cut out the coupon, sign it, have all the adult member of your family to sign it, and send it to "The Curfew Editor" of THE News. We will also have printed slips containing blanks for a number of signatures distributed among the business houses of Paris.

During the first week in January, 1900, THE News will present to the City Council the petition with signatures, and there its duties will end. We have no doubt but that those gentlemen, if requested by a sufficient number of the citizens, will gladly give the matter their careful consideration.

TO THE HONORABLE CITY COUNCIL OF PARIS.

GENTLEMEN—We the undersigned, citizens of Paris, respectfully request your honorable body to enact and have enforced a Curfew Law, if you deem it wise and just, such as is in effect in various cities throughout the State, in the interest of the morals of the boys and girls of Paris, our future men and women.
